Processor: Intel Core i3-3240 or above / or AMD equivalent

Memory: 8192 MB RAM

Graphics: GeForce GTX 750 Ti or above / or AMD equivalent

Storage: 38 MB available space

English,French,Italian,German,Korean,Polish,Russian

Gat is the best. In my opinion he is the best DLC char, hell i might even go as far as saying he's the best agent in the game. I can do some serious beatings with ol gatty boy. So if you tired of hardtacks bs try GAT problems will be solved lol. Gat is my go to agent since I aquired him he hasn't left the squad. Highly recommend him.. now all we need is a johnny cat easter egg.

Additional character DLC. Johnny Gat is a pretty great agent, at the very least the best of the shotgun agents. Not a lot to say about him other than him being a bit of a glass cannon.. It's Gat. if you don't know who's Gat, why are you here? if you DO know Gat, know that he won't disappoint in here too. because he's Gat.. \u2665\u2665\u2665\u2665ing love Gat, the best character in a video game ever. I preordered so I got him for free. Not much to say. It's gat. His missions are cool and fun, I love his dialogue and I like his vehicle skin. But that doesn't mean it is flawless. His ultimate is horribly ineffective because of the glitches that doesn't let me lock on to the enemies which is what is needed for this ultimate. I also think they have to buff his shield a little bit because from my experience in the 14th difficulty, he dies faster than any other agent i have played.. I JUST BOUGHT THIS AND ITS NOT SAYING I OWN IT

Gat's a glass cannon character that's great at taking out high priority targets and building up Mayhem meter quickly but he's also one of the most fragile characters in the cast, he comes with the ability to survive lethal attacks and gain fortify from it but more often than not you'll just end up like Alex Murphy from Robocop.

Gat works best when used as the main enemy sweeper after another agent debuffs and stuns other enemies so he can come in and clean up safely. Gat can be a great destructive force once he gets some more skills and stats to help with surviving, paired with the right agents and a proper setup he can be a great choice for difficulty 15 and is a recommended character to use due to how easy it is to adjust to him.

Don't expect much when it comes to Saints Row fan service though, you'll only get one or two lines with Pierce and Oleg, there's no mention of anything else and his personal mission is just a fairly mediocre loose cannon cop scenario. The Gat Outta Hell skin is nice though.. It looks like he's a glass cannon since his mayhem ability makes him stand still. His shotgun deals a lot of damage, so moving and shooting at the same time makes good play of him. I prefer Lazarus though.. Read this if you're going to get Johnny Gat.

Okay, he's buggy, Real buggy. His mayhem ability is bugged and targets the wrong person when you're trying to kill a boss. (Mayhem is he gets pistoles he's standing still and auto locks) What sucks is that only few shots on the target they don't die you move on. It's so hard for it to lock onto a boss, when it does after like 10 shots it goes to new target ;-;. When i have like 4 people and kill them with my mayhem ability i usually end up staring at the wall with my two pistoles. His mayhem ability is pretty powerful tho. He's a skinpiercer and a Deadshot. His special does alot of damage. He gets out his smg's and shoots in a cone with a fair width and distance. His main attack is a shotgun that deals heaps of damage with alot of ammo he's op and should get him!. Pretty much the same as what I said about the Agent Safeword DLC, applies here. At \u00a34 it's well worth it, it's two missions one to unlock, and one story mission.

His Mayhem gun kata is awesome.. A bit of a glass cannon, Gat boasts a powerful ranged shotgun and an auto-aiming John Woo send-up Mayhem. Unfortunately the Mayhem often has problems locking on target, leaving you pointing at a wall despite knowing there are enemies around. It also renders you immobile but not invulnerable, so it's a very risk-versus-reward attack, with a lot of the risk being the game's mechanics. Still, it's Gat, and if that's enough for you, then so is this DLC.. I got Gat from the preorder. Is this more new content?. honestly i LOVE the game i also love Gat, he is funny, wacky, blood thirsty and honestly i only play him.

therein lies the problem I ONLY PLAY GAT! he is so broken at max level with his point blank shot gun and his invuln mode pistols which when button mashed dish out more damage than most and nearly match peirce in dps. unless Gat gets a major nerf getting him will make you so OP it sucks challenge out of nearly any task
