FAQ

15 However, these versions are only in the testing phase With this version, users can control their computer voice or individual applications including Apple Music, Podcasts and Apple TV will replace iTunes.. I saw a related post and someone had a link but it doesn't work Why apple doesn't provide downloads to Mavericks just like it does for Yosemite and above disappoints me.. With each new operating system launch like that, it would be missing without mentioning the color-specific Apple wallpaper.
